

MAKER BIO CHAIN 68

Description

Biodegradable lubricant made from esters of plant origin, containing special additives to meet the adhesion, oiliness and protection requirements of chainsaw chains.

General lubricating oil. Its high stickiness makes it an exceptional oil not only for chainsaw chains but for all kinds of total-loss lubrication applications.

Properties

- High viscosity index
- High stickiness which enables the oil to remain adhered to the mechanism
- High anticorrosive power
- Environmentally-friendly biodegradable oil

Quality levels, approvals and recommendations

- DIN: 51501 L -AN

Technical specifications

	UNIT	METHOD	VALUE
ISO Viscosity Grade			68
Viscosity at 40 °C	cSt	ASTM D445	68
Viscosity at 100 °C	cSt	ASTM D445	15.3
Viscosity index	-	ASTM D2270	242
Flash point, open cup	°C	ASTM D92	300
Pour point	°C	ASTM D97	-27
Copper corrosion	-	ASTM D130	1a
Rust, method A	-	ASTM D665	Pass
Biodegradability - 28 days	%	OECD 301B	84.1

The above mentioned characteristics are typical values and should not be considered product specifications.
