

Description

High-performance mineral lubricant that is suitable for a wide variety of two-stroke engines. This engine oil is the perfect choice for gardening and forestry applications such as chainsaws and lawnmowers. The Mix 2T is a clean oil that takes care of the engine, protects all metallic pieces from wear and corrosion and offers optimal lubrication for the combustion chamber.

Properties

- High lubricating power, reducing wear and extending the engines life.
- Minimizes the formation of deposits, keeping exhaust ports clean.
- Reduces spark plug fouling and prevents piston rings from sticking.

Quality levels, approvals and recommendations

• API TC

• JASO M345 FB

Technical specifications

	UNIT	METHOD	VALUE
Colour	-	Visual	Red
Density at 15 °C	g/cm3	ASTM D4052	0.881
Kinematic viscosity at 40 °C	cSt	ASTM D445	65
Kinematic viscosity at 100 °C	cSt	ASTM D445	8.9
Viscosity index	-	ASTM D2270	110
Flash point, open cup	°C	ASTM D92	146
Pour point	°C	ASTM D97	-12
Sulphated ashes	% in weight	ASTM D874	0.1
TBN	mg KOH/g	ASTM D2896	1.6

The above mentioned characteristics are typical values and should not be considered product specifications.
