

Description

Repsol Multiuso Sash lubricants are made with carefully selected bases.
General grease oils very suitable for lost grease applications (oil can, brush, ...).

Properties

- High viscosity index.
- Good anti-corrosion protection.

Quality levels, approvals and recommendations

- DIN 51501 L -AN
- ISO 6743/1 - AN

Technical specifications

	UNIT	METHOD	VALUE					
ISO Viscosity Grade			22	32	46	68	200	300
Colour	-	Visual	L2.0	L2.5	L2.5	L3.0	L6.0	L6.0
Kinematic viscosity at 40 °C	cSt	ASTM D445	15	32	46	68	200	300
Viscosity index	-	ASTM D2270	95	95	95	95	97	97
Flash point, open cup	°C	ASTM D92	>145	>145	>145	>145	>160	>160
Pour point	°C	ASTM D97	-15	-15	-15	-15	-9	-9

The above mentioned characteristics are typical values and should not be considered product specifications.
