

Description

Lubricant oil formulated for lubricating motorcycle gearboxes. It provides excellent resistance to shearing and ensures that oil bath clutches operate with perfect slipping control in extreme conditions. It prolongs the life of all gearbox components, reduces mechanical noise and helps cold starts.

Properties

- Excellent load-carrying capacity and antiwear.
- Protects and prolongs the life of gearboxes, gears and auxiliary systems.
- Maximum protection against wear and extreme conditions for all parts of the gearbox.
- Compatible with the materials used in the transmissions of all types of motorcycle.

Quality levels, approvals and recommendations

- API GL-4
